June Meeting

Our June meeting was a success as always. Andy Dervan gave a very interesting talk on Clock Factory Postcards. Our auction was well received as well. Our next meeting will be our clock tour on September 30. Detailed information is included in the newsletter.

Dues Due

It's now time to pay your dues. Because our first meeting is a tour, we are enclosing a renewal form for your convenience. You can include this form with your lunch reservation and your new card will be waiting for you at the door in December.

Who's Minding the Store? . . . President on Sabbatical

No doubt, many of you are unaware that I am out of town right now, and will be away until Christmas. Dawn & I determined that my semi-retirement had to be postponed for a few years, so I have taken a job in Fort McMurray, AB, driving a city transit bus. The aim is to acquire the experience I need to obtain a position at home with the LTC. If all goes as planned, I'll be back to stay in another 4 months. In the meantime, thanks to the significant efforts of a couple of people, my absence (since June) has been unnoticeable for most club members. As this newsletter will inform you, a lot of planning and organizing by the Club's Executive has been accomplished since I left town. I owe a huge thanks to Cathy Koolen for once again jumping into the fray, and assuming much of my responsibility. Cathy has always given more than we have the right to expect from one person, and I want her to know that we do not take this for granted. Also, it would be a grievous oversight if I did not acknowledge my wife and partner, Dawn McLean, whose involvement with the club to date has been mostly prompted by a desire to support me in my interests. Many of you are unaware of just how much extra effort she has added to her role as Secretary, and the benefit this has meant to me, as President. Ladies, I salute you both! SEE YOU SOON BRUCE

You're Invited To a Clock 'Warming'

Cathy and Gerry would like to invite you to drop in on **Sunday October 14**, between 10 and 3, to see their Tower Clock (and others). The clock is a William Potts & Son, Made in Leeds England in 1898 and recently installed in their new garage. (Only crazy clock collectors would build a garage for a clock!).
