CALENDAR CLOCKS

CHAPTER 92 UPDATE

by Rick Robinson

Hello Everyone,

Wow, it's time for our February meeting already. This is the only meeting of the year that we're usually worried about the weather keeping people at home, but it's looking pretty good. So, we hope to have a good crowd.

The theme for our meeting, and the show and tell display, will be calendar clocks and watches. I'm going to present a short review on the development of these devices over time. I'm sure that most people have some sort of a calendar clock, or watch kicking around, so please bring it out for the display. It doesn't have to be a fancy one. It just needs to somehow show the date. I'll bring the locking display case for the watches.

Director Charlie will also be sharing some of his useful tips on his method of cleaning up tarnished 400 day clocks.

This is also a good time to clean out the clock room and load up the silent auction tables. No commissions! No taxes! How good is that!

That's all I have for now. Drive safe.
